TECHNICAL & COMMERCIAL PROPOSAL

WEB DEVELOPMENT PROPOSAL

ID Card Studio
School ID Management Platform

End-to-end web development covering design, frontend, backend and integration, plus a complimentary portfolio website.

PREPARED FOR

Mr. Sunil Kumar

ID Card Studio, powered by CTC

PREPARED BY	COMPANY	DATE	REFERENCE
Karnveer Singh	Scriza Pvt. Ltd.	8 November 2026	SCZ/PRP/IDCS/2611

Dear Mr. Sunil Kumar,

Thank you for the opportunity to work with **ID Card Studio (powered by CTC)**. This proposal covers the complete development of your school ID management platform. The work includes design, frontend, backend and integration, taking the platform from its current designed state to a live, working product your schools, agents and students can use every day.

As a goodwill gesture for this engagement, Scriza will also build a **standard portfolio website for ID Card Studio at no extra cost**.

01 Project Overview

The platform digitises the full school ID card process, from collecting student data and photos to printing and delivering finished cards. Schools no longer need to collect paper forms and photos manually. Each student receives a personal link, fills in their own details and takes a fresh photo, and the school approves the record before it goes to print.

5
Role panels: Super Admin, Premium Agent, Regular Agent, School Admin and Student

17
Functional modules, from student records to print and delivery tracking

1
Unified journey: invite → submit → review → print → deliver

+1
Complimentary portfolio website for ID Card Studio

02 Current Status

> **The frontend design is already complete.** A responsive, branded interface covering every role panel and workflow has been designed and is available as a working preview. This proposal covers the remaining work needed to make it a production system: finishing the design, building the frontend on real data, developing the backend, integrating everything and launching it.

03 Solution Workflow

1 · COLLECT
The School Admin imports the student list (CSV/XLSX) and sends personal invitation links by email.

2 · SUBMIT
Students verify their link, fill in the school's configured fields and capture a live photo.

3 · REVIEW
The School Admin reviews each submission, corrects details or requests changes, then approves it.

4 · PRINT & DELIVER
Approved records become print batches with card PDF proofs. Agents track progress from printing to delivery.

04 Scope of Work

One fixed price covers all of the following:

A · UI / UX DESIGN

- Final design pass on all existing screens
- Responsive behaviour for desktop, tablet and mobile
- ID card front/back and lanyard template layouts
- Email invitation and notification templates
- ID Card Studio branding applied consistently

B · FRONTEND DEVELOPMENT

- All 5 role panels connected to live data
- Student, staff, class, section, session and promotion modules
- Student self-submission form with camera capture
- School review, correction and approval screens
- Print batches, card PDF proofs and CSV exports
- Form validation, empty states and user guidance

C · BACKEND DEVELOPMENT

- Secure login with role-based access control
- REST APIs for every module in the frontend
- Database for schools, students, staff and batches
- Signed, expiring invitation links with email code check
- Photo and PDF upload storage for each school
- Audit trail of approvals and print status changes

D · INTEGRATION & LAUNCH

- Frontend and backend integrated end to end
- Transactional email service for invitations and codes
- Bulk CSV/XLSX import with duplicate checks
- Deployment to the client's server or cloud, with SSL
- Functional testing across all roles before go-live
- Handover walkthrough and admin training session

05 Complimentary: Portfolio Website FREE

A clean, standard portfolio website for **ID Card Studio** to present the business to schools and partners:

- Up to 5 pages: Home, About, Products & Services, Gallery, Contact
- Mobile-responsive layout in ID Card Studio branding
- Enquiry form with email delivery
- WhatsApp/call buttons and Google Maps location
- Basic on-page SEO (titles, meta tags, sitemap)
- Link to the school ID platform login

Content (text, photos, product samples) is supplied by the client. The site is a standard brochure website; e-commerce and a CMS are not included.

06 Delivery Timeline

Week 1	**Kick-off & design finalisation.** Requirements sign-off, design refinements, card templates.	Approved designs
Week 2–3	**Backend & frontend build.** Database, APIs, authentication, all modules connected to live data.	Staging build
Week 4	**Integration & testing.** Email, uploads, imports, PDF proofs; full testing across roles.	UAT release
Week 5	**Go-live & portfolio website.** Production deployment, training, portfolio site launch.	Live platform

The timeline starts when the advance payment and required content/access are received. Delays in feedback or content shift the timeline by the same period.

07 Commercials

#	DESCRIPTION	AMOUNT (₹)

Amount in words: Rupees Eleven Thousand Eight Hundred Only (₹10,000 + 18% GST).

08 Payment Terms

50% · ON CONFIRMATION

₹5,000 + GST (₹5,900) as advance to start the project.

50% · ON GO-LIVE

₹5,000 + GST (₹5,900) on production deployment, before handover of credentials.

09 Not Included

The following items are outside this proposal and can be quoted separately if required:

- Third-party running costs: domain, hosting/cloud server, email-sending credits, SMS gateway
- WhatsApp Business API integration (planned as Phase 2)
- Automated face matching, liveness detection or automatic photo extraction from PDFs
- Native Android/iOS mobile apps
- Physical card printing, printer hardware or printer driver integration
- Annual maintenance (AMC), new features or change requests after scope sign-off

10 Support & Terms

- **Warranty:** 30 days of free bug-fix support after go-live, covering defects within the agreed scope.
- **Ownership:** On full payment, the source code and website are handed over to ID Card Studio.
- **Client inputs:** Logos, content, card artwork, server/domain access and timely feedback are provided by the client.
- **Change requests:** Work outside Section 04/05 is estimated and billed separately after written approval.
- **Data:** Student data is handled only for project purposes and is not shared with third parties.
- **Validity:** This proposal is valid for 15 days from the date of issue.

11 Acceptance
